

# SMOOTH RUNNING

**Ask for TF2®**

Enhanced with Teflon® to repel dirt and protect parts – whatever the elements may throw at you

BRANDS BY

# Smooth Running

Weldtite produce a wide range of specialist lubricants, each product being specially formulated to ensure the best possible protection and performance. But which lubricants should you use on which components?

## The TF2 Range

At the heart of our lubricant range is the award-winning **TF2 aerosol spray** – the world's best selling Teflon® based lubricant spray.

Use TF2 before every ride – lightly spray the brake lever pivots, gear pivots and chain to force out damp. The Teflon® film it leaves behind will carry on protecting your bike for many miles.

- Teflon® molecular coating for low friction and high lubricity
- Built-in repellent to disperse water
- High penetration into the bearing surfaces of the chain
- Repels dirt and cleans surfaces leaving a protective film
- Also suitable for motorcycles, cars boats and many more uses besides

TF2 Aerosol Spray with Teflon® (150ml) 03021  
TF2 Aerosol Spray with Teflon® (400ml) 03015

4/5 "WORKS WELL... A VERY GOOD LUBE"  
**Mountain Biking UK**

9/10 "COMES HIGHLY RECOMMENDED"  
**CYCLING PLUS**

**Weldtite** are one of only two companies in the world who have the rights to put DuPont branded products in their bicycle lubricants. The products we use are Teflon® and Krytox®. Out of the top 14 selling bicycle lubricants in independent tests our lubricants were rated 1st, 2nd, 3rd and 6th. The tests were conducted using a four ball wear test by one of the UK's top universities.

## Get the right fluids Hydraulic Brake Fluid

Weldtite produce two versions of brake fluid – Mineral and Dot – and it's essential to use the correct fluid in your hydraulic brakes.

Mineral Oil Brake Fluid (125ml) 03039  
Dot Brake Fluid (125ml) 03040

## Year round protection TF2 Performance Lubricant with Teflon®

Ultimate all weather Teflon®-based lubricant.

- Enhanced protection all year round.
- Extremely Versatile Lubricant with Multi-Purpose applications
- Refillable bottle.

TF2 Performance Lubricant (100ml) 03047  
TF2 Performance Lubricant (1ltr Refill) 03048  
TF2 Performance Lubricant (5ltr Refill) 03049

## Well oiled Cycle Oil

Our Cycle Oil is a budget hydro-carbon mineral oil suitable for use on cables, bearings, pedals, chains and links.

Cycle Oil (125ml) 03001

## Shock therapy Suspension Fork Oil

You should change the oil in your bike's hydraulic forks roughly every 1000km – this will keep them operating as new for much longer.

Weldtite's Suspension Fork Oil contains anti-foam agents, which help your forks cope with the toughest of trails.

- Race formulation
- Most popular viscosity index
- Prolongs seal life
- Ensures consistent dampening at elevated and low temperatures

Suspension Fork Oil 7.5wt (500ml) 03026  
Suspension Fork Oil 5wt (500ml) 03007

## Smooth Operator Bike Grease

A high performance, specially formulated red grease made with Teflon® for both on- and off-road use.

- High lubricity and low friction
- Longer lasting than most other greases
- Suitable for use on suspension systems
- Compatible with the Weldtite Grease Gun
- Surface temperature from -30° to +130°

Bike Grease with Teflon® (150ml Tube) 02009  
Bike Grease with Teflon® (3kg Tin) 03038

## Grease Gun

You can apply grease with your fingers, but for a less messy and more accurate method the Weldtite Grease Gun is ideal.

- Lightweight and durable
- Easy one-handed clean application
- Precision sealed pump prevents leaks
- Can be stripped down for cleaning
- Nozzle size is suitable for grease nipples

Grease Gun 06008  
Grease Gun & Bike Grease (150ml) 06009

5/5 "A GREAT LITTLE DEVICE"  
**Mountain Biking UK**

## Chain Gang

It's vital to keep your chain and gears working properly – and different environments call for different kinds of protection...

### Dry Wax with Krytox®

Ideal for summer use as it gives a low rolling resistance and a very high level of protection. It lasts a long time and because it's a wax it doesn't drip off.

- Made with Krytox® for excellent metal bonding
- Tenacious penetrating action
- Excellent dirt repelling properties
- Water resistant and contains anti-corrosives
- Low chain noise
- Designed to work in all conditions

Dry Wax with Krytox® (125ml) 03006

### TF2 Plus

Ideal for dry road conditions, **TF2 Plus** is a light Teflon®-based lubricant with low rolling resistance formulated for chains, derailleurs and cables.

- Suitable for both on- and off-road use
- Resists water penetration and wash-off
- Contains Teflon® to protect and ensure smooth running of the drive chain
- Repels dirt that can damage moving parts

TF2 Plus (75ml) 03034  
TF2 Plus (125ml) 03035

### TF2 Extreme

Highly durable, **TF2 Extreme** is suitable for extreme weather and long distance cycling.

- Handy convenient size
- Specially formulated with high quality oils and special additives.
- Long lasting with excellent water displacement

TF2 Extreme (75ml) 03036  
TF2 Extreme (125ml) 03037

## Grease is the word Lithium Grease

A white grease specially formulated for two wheel applications, suitable for use on headsets, wheel bearings and bottom brackets.

- Excellent lubricity reducing wear and corrosion
- Exceptional water resistance
- Easy application and high visibility

Lithium Grease (40g tube) 02005  
Lithium Grease (40g tube – carded) 02025  
Lithium Grease (100g jar) 03004  
Lithium Grease (3kg tin) 03005
